32 FIRESIDE CHAT 12:25 – 12:45

From Orbit to Operations

Satellites and geospatial AI are only worth what gets deployed. An operator building the region's space and smart infrastructure on where raw capability becomes a service a country runs on every day, what breaks in between, and what sovereign infrastructure has to look like for the next decade.

SPEAKER
Hasan Al Hosani
Chief Executive Officer, Smart Solutions, Space42

HOST
Michael Brunner
Managing Director, Goanna Capital

NETWORKING LUNCH 12:50 – 14:00

33 PANEL 14:05 – 14:30

Panel 9: Enterprise Panel

Enterprise AI adoption and deployment, from experimentation to operational reality. Every large enterprise has run an AI pilot; far fewer have moved AI into core operations where it touches revenue, safety and millions of customers. Leaders deploying AI inside heavy industry, aviation and the region's AI champions on what it takes to get from proof of concept to production at scale.

PANELIST
Daragh McGrath
CEO, Xanadu (Canva enterprise partner)

34 COMPANY SPOTLIGHT 14:35 – 14:45

The Agentic Enterprise: How Snowflake Is Making AI Real for Business

The competitive advantage in AI isn't the model, it's the governed data and business context behind it. Without that foundation, even the most capable agents deliver unreliable results and stall in production. Most enterprise AI never makes it past the pilot. Snowflake is here to end that.

SPEAKER
Ahmed Hafez
Director of Solution Engineering, Middle East, Turkey & Africa, Snowflake

35 PANEL 14:50 – 15:15

Panel 10: The Future of Mobility
